

# **10 islands in 10 days in magnificent Dalmatia (Croatia) with RM 1200, Schnufao S/Y, SUI 5224**

by Domingo Zaengerle

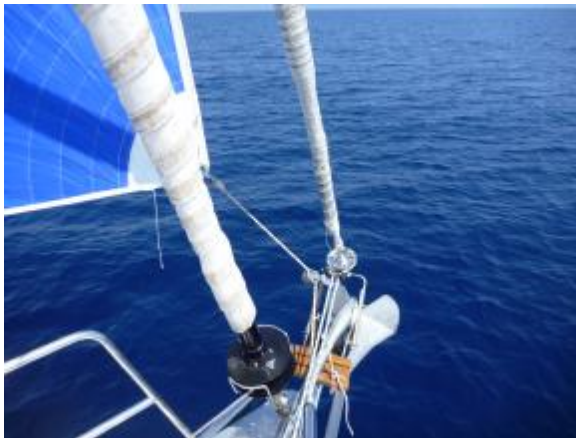

In June 2011 we sailed every morning with the best wind direction. So we achieved to visit 10 wonderful islands in 10 days. 250 sm of nice sailing with winds from F 2 to F7. Once reaching we surfed up to 11kn with 2 reefs in the main and full genua. At least 210 sm we were under sail. The following pictures express the beauty of this special trip.

**Prapatna lonely bay, island Hvar**

**Island Scedro**

**Gennaker is pulling, Code Zero waiting**

**Bay Lovisce**

**Best fish from the wood fire**

**Island Lastovo**

**Island Solta**

**Island Brac**

**Bay Luka**

**1 kg fresh mussels from the stones**

**Bay Luka**

**Island Vis**

**Swimming**

**Eating**

**Fishing (Chines style)**

**Sitting in the sunset**

**Pucisca wonderful place all in marmor**

**Good and cheap meal**

**Little small chapel**

**Gennaker power**

**Island Korcula**

**11 knots speed**

**Island Mljet**

**Village Pomena**

**Code Zero 88m2, 80 % used in head wind**

**Very happy skipper after such a voyage**

**We were very surprised from Croatia, very clean, good organised, very busy people, good prices, good advertising of the treks for MTB and walking people. Many ruin's well refurnished, the houses fit perfect in the landscape. The Croat's are not friendly from the beginning, only after some time with the confidence they became colleges. The many island's given from the nature are spectacular. In summer time the winds are perfect for sailing, in the morning from the hills F2 to F5 (Borina) and in the afternoon the Mestrals NW F3 to F4. For the winter the boat should be out of the water due to the Bora with winds up to 100 kn.**
